

BRANCH MEETING PROGRAM
April 20, 2021

Speaker: Chandler Peter, Regulatory Technical Specialist, USACE

Title: Navigable Waters Protection Rule - Tinkering At the Baseline

Bio:

Chandler is the Regulatory Technical Specialist for the Corps of Engineers, Fort Worth District, Regulatory Division. He previously served as the National Environmental Policy Act (NEPA) EIS/404(b)(1) coordinator for the Omaha District Regulatory Branch as well as the Northwest Division NEPA Subject Matter Expert for the regulatory program. He has more than 30 years' experience in aquatic resource regulation and analysis with the Corps, New Jersey Department of Environmental Protection, and US Fish and Wildlife Service. He has overseen, directed, and supported the evaluation of numerous energy, water resources, and transportation projects with significant effects to aquatic resources in the state of Texas, the Rocky Mountain Region, and other parts of the nation. He is a graduate of Texas A&M University – Corpus Christi where he earned a Bachelor of Science in Biology.

Sponsor: Forterra builds sustainable infrastructure through strategically located facilities across the United States as well as in Mexico and Eastern Canada.

Since setting our foundation in 1899, we have evolved dramatically in the areas of distribution, technology, and product development – not only to move water, but to employ its benefits for sustainable communities.

Whether providing water to homes or ensuring safe roadways, Forterra products are there to improve quality of life and help communities grow and thrive.
